MANUFACTURING PROCESS

SEA WATER

We collect sea water in the straight between Bali and Lombok island at a depth of 45 to 50m. This water is known for continuously circulating at great depths between the South and the North poles. It is permanently fresh and source of endless natural diversity. This sea water measures an exceptional vibration rate of 900,000 on Bovis scale.

ORMUS CRYTAL PRODUCTION

Our ORMUS is produced with joy and alchemical love in a very safe, specific and potent way. Several techniques and technologies are used all along this unique protocol to maintain, increase or optimize its vibration rate, such as:

- Specific electro-magnetic fields and frequencies
- Use of highly energetic pyramids and telluric points
- Gans and other alchemical substances information

Our ORMUS crystals are clean washed and dried with utmost care.

HOW DO I USE MY SELOR ?

The ORMUS crystal is in a latent state, awaiting to become active again in the presence of water as a plasma, also called the 4th state of matter. There is an extensive range of applications for it, so let's focus on human use. Mainly 2 ways to absorb it:

- Diluted in neutral drinking water
- Diluted straight into your body's water

DRINKING WATER

Use a drinking water as neutral as possible, with a pH of 7 or above, and a TDS as low as possible (possibly less than 100ppm).

The mixing ratio is set at 4g of SELOR powder for 1l of water. This is when your intention is fundamental. When partially dissolving this ORMUS crystals into the water, it will be filled with the information you want it to carry, which should be crystal clear and coming from your heart ! Let it rest for 24h. You can then start drinking your own made water over the day. And before reaching the bottom of it, where some crystals are still visible, refill your bottle with the same intention. We recommend using a clean glass bottle.

HOW DO I USE MY SELOR ?

STRAIGHT CONSUMPTION

Recommended dosage per intake: 10 to 50mg of ORMUS crystal.

Simply swallow with a glass of your favorite water.

Start slowly, go smoothly, and adjust quantities to your own needs. The very special particularity of this powder is that it adapts to anyone's profile.

PRECAUTIONS

- Store your SELOR in a good vibes environment at ambient temperature
- Don't touch it, except in the hollow of your clean hand before intake
- Use clean plastic or wooden spoon for transferring it, no metal contact
- Always manipulate with your highest mindset or spiritual mood
- Whether you are a believer or not, always keep in mind that you are communicating with a divine intelligence linked to the Source of Life

BIOENERGETIC PROPERTIES

The Fenyx report below has been showing an incredible stability all over the process of creating this amazing substance, which confirms that this ORMUS crystal is at a latent stage, awaiting to react into the sensible life process. It is proven that once it is mixed with water, its bioenergetic properties will change to reflect its personalized physical, energetic and spiritual environment. This superconductor substance is extremely receptive.

As produced today, our SELOR has reached vibration rates of up to 3,000,000 on Bovis scale, but this can easily be modified, lowered or enhanced by each end user.

SELOR is

An outstanding malleable, powerful and universal substrate for each of us !
